

MI-KV MI KNEE OPERATED VALVE

DESCRIPTION

The MacDonald Industries Knee Operated Valve is another part of the MDI hands free tapware range. These valves are extremely robust and long lasting. These are a timed flow valve with a 7 second runtime but can also be held in the ON position to give the user a greater time of use.

Hygienic hands free activation for use in hospitals, kitchens and laboratories.

- 15mm BSP inlet and outlet
- 7 second run time
- 150-350kPa water inlet pressure
- 0-60 degree water temperature

MODELS

MI-KV – Knee operated valve, 7 second run time
