

MI-KV-KIT

MI KNEE OPERATED VALVE KIT

DESCRIPTION

The MacDonald Industries Knee Operated Valve is another part of the MDI hands free tapware range. These valves are extremely robust and long lasting. These are a timed flow valve with a 7 second runtime but can also be held in the ON position to give the user a greater time of use.

Hygienic hands free activation for use in hospitals, kitchens and laboratories.

- 15mm BSP inlet and outlet
- 17 second run time
- 150-350kPa water inlet pressure
- 0-60 degree water temperature
